

I am a simple PDF to be used for testing G Grobler's Research Prototype

I am here to test a combination of changes to a PDF document

There will be changes on all the pages.

There will be changes to the metadata, and the root object.

I am Page 1

There will be a text and image addition.

The text below me:

The Image Below me:

I am Page 2

There will be a text and image updates, the file page object will be updated.

The text below me will change:

This line of text needs to change

The Image Below me will change:

IMG For Page 2

I am Page 3

There will be a text and image deletion, the file page object will be updated.

The text below me will change:

This line of text needs to be deleted

The Image Below me will be deleted:

IMG For Page 3
